

Monetary Policy Rate Adjustment

Dear Valued Customer,

Following a reduction in the Bank of Zambia (BOZ) Monetary Policy Rate from **14.25%** to **13.5%**, the interest rate charged on credit facilities with Access Bank Zambia Limited will reduce by **0.75%** effective **1st March 2026**.

The adjustment will result in either reduced loan tenures or monthly installments. You are advised to visit the nearest branch or contact me directly as your Relationship Manager on your preferred option.

Should we not hear from you by **1st March 2026**, the Bank will proceed to reduce the tenor of the loans.

I remain available for any further clarifications.

Thank you for your continued partnership.
